

Viral Testing

Every case we receive is incredibly important to you and the care you provide. It is never just another specimen that enters our lab – it's someone's parent, sister, brother, child or a friend who is anxiously awaiting the results. Fast and most importantly **accurate** testing is paramount during this critical time.

Pathline Viral Testing

- Thermo Fisher: TaqPath™ COVID-19 | Influenza A/B Combo Kit
- FDA Approved: Emergency Use Authorization (EUA) test
- Specimen Type: Nasopharyngeal/Oropharyngeal swabs
- One specimen for both viruses
- Turnaround Time: 24-48 hours
- Reports delivered via fax, web portal, or direct to EMR system

The Pathline Difference

All testing is conducted in our CLIA, CAP, & NY State licensed laboratory located in Ramsey, N.J. and is supported by our fellowship trained of board-certified pathologists and our highly trained laboratory team members with more than 100 years of combined experience in laboratory medicine.

Expertise in Molecular Testing

- Quality assurance is built into all of our processes, ensuring greater quality control and virtually eliminating misplaced specimens and QNS situations.
- Specimens are transported via FedEx overnight or our dedicated courier network.
- CEREBRO® specimen tracking system help identify and locate every specimen in the lab, ensuring problems are spotted before they can occur.

Our Commitment

- Client-focused care
- Comprehensive reports with easy to read results
- Competitive Self-pay pricing
- Industry-leading turnaround time
- FDA-EUA approved testing
