

# VIRAL TESTING

## Covid-19

*Pathline Labs provides the most accurate COVID-19 testing options with industry leading turnaround times to meet your specific needs.*

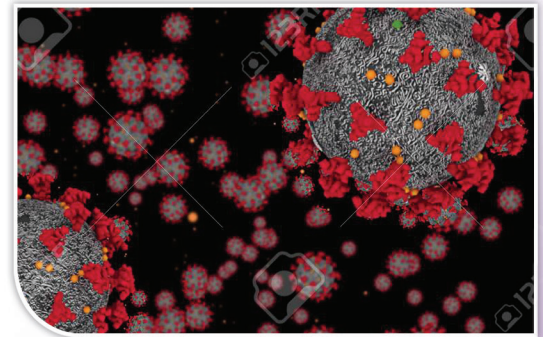

## The Pathline Standard

- Pathline utilizes Thermo Fisher and Hologic to support all COVID-19, Influenza A/B, and RSV testing. One swab, three tests. This test detects all past and future variants of SARS\_CoV2 including Omicron, Delta, and Lambda variants.
  - **Specimen Type:** Nasopharyngeal/Oropharyngeal swabs
- SalivaDirect™ COVID-19 test detects SARS-CoV-2 and Omicron
  - **Specimen Type:** Saliva collection

## Expertise in Molecular Testing

With Expertise in Molecular Testing, Pathline has processed nearly 2 million COVID-19 tests throughout the United States, providing accurate results to:

- Physicians
- Regional and State Hospitals
- Surgery Centers
- Immediate Medical Centers
- Educational Facilities
- Businesses
- Major Airlines
- Nursing Homes & Assisted Living Facilities

*Coronavirus Structure with Complete Surface Protein Representation*
